- 3. Migrates all email content from selected MBOX files and folders.

4. Converts MBX, MBS and MBOX into Outlook PST format seamlessly

5.Export orphan MBOX files to PST or other files formats

- 6.Automatically identifies the mailbox connected to the systems common email clients
- 7.Operates in folder modeallowing you to add a folder containing multiple MBOX files

Pre-requisites & System Requirements

- Pentium Class Processor
- Minimum 512 MB RAM (More recommended)
- 50 MB for Software installation
- Disk Space Enough space to store the recovered results

Supported Versions

Supported Operating Systems- Supports Windows10, 8.1, 8, 7, Vista, XP,2000 and2003 (32/64bit Version)

Supported MS Outlook platforms- Supports Microsoft Outlook 97, 98, 2000, XP, 2003, 2007, 2010 and 2013 (32/64bit Version)

2. Install Goldy Converter for MBOX

2.1 Installation

Your step-by-step tutorial to installing Goldy Converter for MBOX:

To be able to seamlessly install Goldy Converter for MBOX Software on your computer, simply execute the steps given below:

• First and foremost, ensure that your host computer meets the minimum system requirements and has ample memory available

. \bullet After that download Goldy Converter for MBOX software from the website: <code>http://www.goldytools.com</code>

• You would then need to double-click on the Goldy Converter for MBOX

software installer.

• Simply, go through and follow the instructions as given on the screen. You would finally get to see the setup installation completion screen. Here, click on the Finish button which would then open the main screen of the Goldy Converter for MBOX.

2.2 Uninstallation

How to uninstall Goldy Lotus Notes to Outlook Software?

There are two simple ways of uninstalling Goldy Lotus Notes to Outlook software from your computer system:

- Option 1: By using the Windows Start menu.
- Option 2: By using the Control Panel.

Kindly note: Be cautious about the fact that the Goldy Converter for MBOX Software is not running in the background of your computer.

Uninstalling using the Windows Start menu

- Go to your computer desktop and click on the Start button from the Windows menu.
- Go to All Programs > Goldy Converter for MBOX > Uninstall Goldy Converter for MBOX

• You would see a warning message confirming the uninstallation of the software on your computer screen. To confirm, click on the Yes button to Uninstall the Goldy Converter for MBOX.

You would then be able to successfully uninstall Goldy Converter for MBOX software from your computer system.

Uninstalling using the Control Panel option

• Go to your computer desktop and click on the Start Menu > Control Panel and then double click the Add or Remove Programs icon. Choose the Goldy Converter for MBOX and then click on Remove.

• You would then see a warning message confirming the uninstallation of Goldy Converter for MBOX Software.

• To confirm, simply click on the Yes button to uninstall the Goldy Converter for MBOX Software.

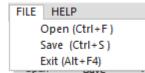

You would then be able to successfully uninstall Goldy Converter for MBOX software from your computer system.

Menu Bar

- The Goldy Mbox to PSt menu bar has two main menus namely File, Help.
 - File Menu
 - Help Menu

File Menu

The File menu option Goldy Mbox to PSt appears as below:

The sub menu options and their respective functions are as follows:

| Menu Option | Description |

Step 6: After defining the conversion rules, user can even select the "**Attachments**" checkbox to convert all the email items along with attachments.

Step 7: Click Next to proceed.

Saving Converted MBOX Files

The MBOX files are swiftly converted to other accessible file formats like PST, EML or MSG. These file formats are easily readable in MS Outlook, Outlook Express and Windows Live platform. Apart from conventional saving option, In fact, this Software offers two different options while saving in Outlook PST format:

- <u>Create New PST File</u>
- Save in Existing PST File

Software facilitates saving of converted email items according to the folder hierarchy.

| Export Option | | × |
|--|------------------|-----|
| Select Export Option: | MSG v | |
| Other Formats 1. You can save the mails of the converted mailbox in other formats as well like MSG,EML,RTF,HTML,DOC,PDF 2.All the mails are saved in the folder hierarchy similar to the mailbox folder structure. | : | J |
| Select location to save PST file(s) • Create New PST File : ○ Save in Existing PST File : | Browse Browse | |
| | | |
| < <u>B</u> ack | Save Can | cel |

Create New PST File

Post defining the conversion criteria on MBOX files, Software allows you to save the email items in the newly created PST files by using following steps:

| Export Option | | | × |
|---|--|--------|--------|
| Select Export Option: ⊙ Save in PST | ◯ Other Formats | MSG 🔻 | |
| | mailbox in other formats as well like MSG,EML,RTF,HTML,DOC,PDF chy similar to the mailbox folder structure. | | |
| Select location to save PST file(s) | | Browse |] |
| | | | |
| | < Back | Save | Cancel |

Step 1: Select 'Create New PST File' option.

Step 2: To provide the destination to newly created PST file, click **'Browse'** button. Software creates a default name as Apple MailMBOX.pst. However, user can rename it accordingly.

Step 3: To save the converted items in the newly created files, click **'Save'** button. This appears as follows

| Please wait while current process finishes | × |
|---|----------|
| | |
| Source File : E:\Data\Mbox\Gmail Data\takeout-20240929T110820Z-001\Takeout\Mail\All mail Including Saving Item : 16 | Spam |
| Saving Folder : Gmail Data\takeout-20240929T110820Z-001\Takeout\ mail lockuding Soam and Trach\ | Mail\All |
| Cancel | |

Step 4: After successful completion of email conversion process, the newly created file gets saved in destined location:

| Finish × |
|--|
| |
| The process completed successfully. Your Output Pst files are Saved to the following location. |
| E:\TEST\NEW FOLDER (25) |
| |
| |

Save in Existing PST File

Apart from providing an option to save the MBOX file items in newly created PST files, Software also provides an option to save the email items into 'Existing PST File'. The dedicated steps to make such migration are as follows:

Step 1: Select 'Save in Existing PST File' option followed by clicking 'Browse' button to provide location of pre-existing file. The screen appears as:

| Export Option | | | × |
|---|---|--------|--------|
| Select Export Option: ⊙ Save in PST | ◯ Other Formats | MSG - | |
| | rerted mailbox in other formats as well like MSG,EML,RTF,HTML,DOC,PDF | |) |
| Select location to save PST file(s) Create New PST File : Save in Existing PST File : | hierarchy similar to the mailbox folder structure. | Browse | |
| | | | |
| | < Back | Save | Cancel |

Step 2: To save the converted email items, click **'Save'** button. It save the data in pre-existing PST files. Software displays the conversion process as:

| Please wait while current process finishes | × |
|---|---|
| | |
| Source File : E:\Data\Mbox\Gmail Data\takeout-20240929T110820Z-001\Takeout\Mail\All mail Including Sp Saving Item : 24 Saving Folder : Gmail Data\takeout-20240929T110820Z-001\Takeout\Mai mail Including Spam and Traeb\ | |
| Cancel | |

Step 3: Post successful conversion, Software displays the location of the PST file where it gets saved.

| Finish | × |
|--|---|
| | |
| The process completed successfully. Your Output Pst files are Saved to the following location. | |
| E:\TEST\NEW FOLDER (25) | |
| | |
| | |
| OK | |
| | |
